Foreword

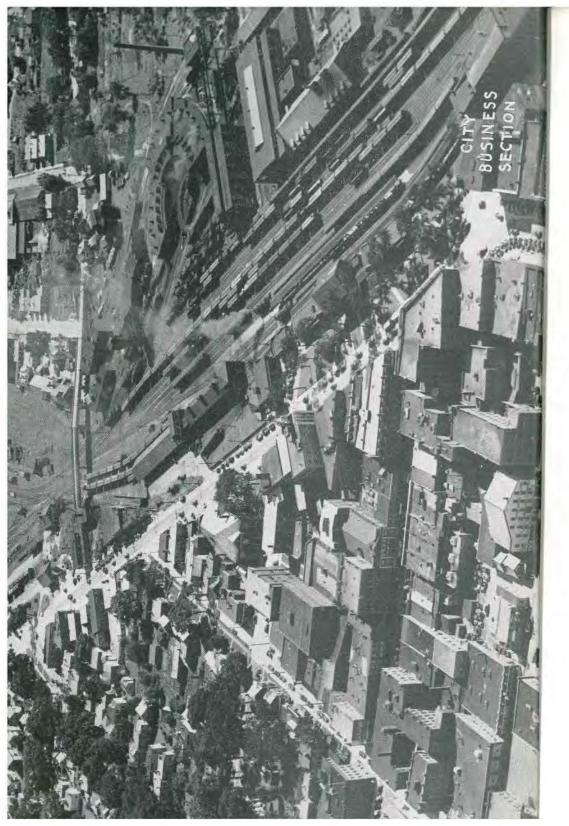

This report, published to acquaint the citizens and taxpayers of the City of Rutland with the policies of their City Government, contains an analysis of expenditures and activities of the various departments.

Worthwhile improvements were made in many departments through the innovation of additional and better equipment. Much has been accomplished during the past year in the way of construction of permanent roads in our City.

In the School Department, advances have been made in adjusting the school to the needs of the child and in developing a better understanding of children. The School plant shows a steady improvement, both in added facilities and in general care and upkeep of buildings.

While detailed data in considerable volume has been eliminated from various departmental reports as herein published, the facts omitted are on file at the office of the City Clerk and may be examined there.

The Administration desires to express appreciation for cooperation given it and again to urge citizens to attend the bi-monthly Council Meetings.

In Memoriam

The City of Rutland pays tribute to these officials and employees who died while in the service of the City, during the year 1939:

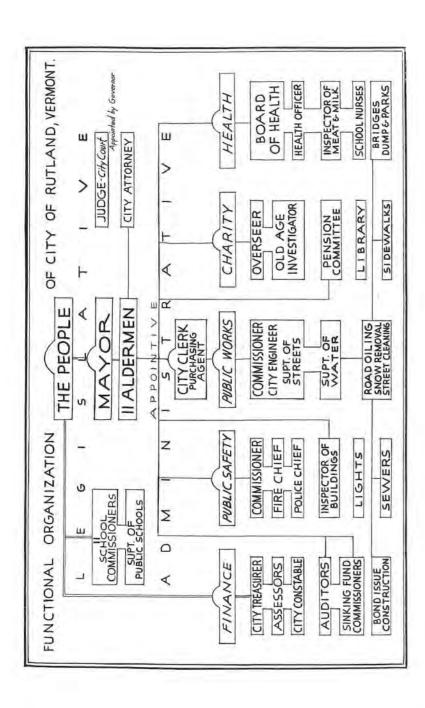

John D. Haugh, Overseer of Poor, January 1, 1939.

Edward C. Duggan, Fireman, February 8, 1939.

Horace A. Colburn, City Treasurer, June 10, 1939.

Samuel L. Huffmire, Assessor, July 5, 1939.

Welford H. Handley, Overseer of Poor, September 25, 1939.

Tax Rate	\$3.90	\$4.45

^{*}Last official census 1930.

Rutland's annals begin on the 30th day of September, 1769, when the first white settler came into this valley with his wife and eleven children and settled among the Caugnawaga Indians near the falls at Center Rutland.

This was the beginning of history, then, by white men, in this valley, though the land in the valley had been bought and sold in speculation for years before this date.

The charter for the town of Rutland was granted on the 7th of September, 1761, by Col. Josiah Williard of Winchester, N. H., to Mr. James Murray, one of the principal citizens of Rutland, Mass., and he is supposed to be the man who named our city, though records state that he never saw any portion of this valley.

The first meeting called to organize a town government convened on the second Tuesday of October 1770, and continued to operate as a town until November 19, 1892.

On April 1, 1893, the late John A. Mead was inaugurated as the first Mayor of the City of Rutland.

At that time, 2,634 Polls were listed, Grand List \$82,852.74, Tax Rate \$1.25.

"TWIN BRIDGES" - DRAWN BY MRS. C. G. WELLMAN

Mayor's Message

To the Citizens of Rutland:

I have the honor to submit to you the forty-seventh annual

report of the City of Rutland, Vermont.

The inaugural address, delivered in the year 1893 by the late Honorable John A. Mead, first Mayor of our City, stressed the necessity of Economy in the administration of our City affairs. I am taking the liberty of quoting from this memorable docu-

"On this occasion I shall only refer in detail to one subject or factor pertinent to the accomplishment of this purpose,

viz., the subject of taxation.

"Taxation is one of the prime factors of society and civilization, and neither can be maintained without it. It is an absolute necessity and at the same time it is a burden that should be distributed as easily and as lightly as justice and humanity will permit. It affects all classes, though by no means alike."

The fact that you have honored me to serve as your sixteenth Mayor is indicative of your belief in the still existing necessity of the practice of Economy in municipal affairs. Your desires constitute a challenge that I have accepted and I list for your consideration some of the major changes of my administration that have served to promote decreased expenditures:

1. Consolidation of the offices of City Clerk and Purchasing

2. Transferring the Sewing Project to the City-owned Madison Street School. 3. Revamping the policies of the Charity Department and

transferring the Overseer to living quarters at the City Farm.

4. Recommending and insisting that all Departmental heads operate on a minimum budget for the year 1940.

Although the unemployment situation remained unchanged during 1939, our Charity Department was able to end the year with a balance of \$3,400. This is truly a commendable record since it was anticipated at the beginning of 1939 that \$100,000 would be needed to meet the expenses of the Department; however, only \$60,000 was appropriated for this purpose by the City Council.

The assistance rendered by the many Federal agencies in enabling us to solve our severe unemployment crisis is deeply appreciated.

Wages paid to Work Projects Administration employees operating under the supervision of the Public Works Department amounted to \$219,000.00. Material and labor furnished for these and various other enterprises, such as the mattress and sewing projects, the National Youth Administration activities in carpentry and recreation, the Writers' Project, the Immigration Records Project, and the Work Projects Administration office staff bring a total of over half a million dollars into the trade channels of our city.

Most public officials who have to deal with the relief problem are of the opinion that unemployment in varying degrees will continue for many years. From projects hastily conceived, to furnish immediate employment under the stress of an emergency, we have steadily moved forward to the conception of a comprehensive program of public works, extending over a period of years, designed to improve the safety, health, recreation, economic and social welfare of our community.

Your foresight in approving a Bond Issue for the construction of paved roads allowed us to build the equivalent of 2³/₄ miles of 20-foot concrete pavement. The approval of another Bond Issue by the electorate in 1940 is earnestly requested.

I assure you that I am doing all that is humanly possible, and within my power, to expedite action by the Congress on the approval of an appropriation for the construction of the East Creek Flood Control Project.

The moving of the state-wide offices of the W. P. A. from Montpelier to Rutland was a fortunate circumstance for our City. These offices furnish work for 85 people providing a monthly payroll of \$10,000.00. The Chamber of Commerce, as well as all civic-minded groups, should continue to exert, with a renewed determination, every effort to bring new industries to the City of Rutland. Every possible inducement will be offered to prospective new industries regardless of their size.

The parking problem of our city is similar, in all respects, to that confronting all communities of any size in the United States. However, I am pleased to report that due to strict law enforcement on the part of our Police Department, the cooperation of our merchants and the additional parking space made available through the generosity of the Rutland Railroad, our present parking problem has been considerably relieved. Since Rutland is becoming the state shopping center we must at all times be prepared for any further emergency in parking conditions that may accrue.

I wish to publicly thank the Rutland Railroad on behalf of the City of Rutland for their generosity in granting to us the additional parking space in Depot Park.

The Bonded Indebtedness of the City is \$968,000 with a total of \$188,852.47 in the Sinking Fund. This leaves a Net Indebtedness of \$779,147.53 which is approximately six times the Grand List of the City.

The maximum tax rate that can be assessed for any one year under our Charter regulations is \$3.70, including \$1.30 for schools. It was necessary in 1939, to assess an additional 75c to pay off deficit incurred in 1938. In the year 1939, deficit was incurred of \$88,912.54 which will make it necessary to assess an additional tax in 1940 of 65c to pay off the 1939 deficit. In preparing and submitting the budget for the year 1940 to the Board of Aldermen, I insisted that each department cut expenses to the very minimum, with the result that the budget as adopted for 1940 is considerably under that of the years 1938 and 1939. There are, of course, many activities to which we are accustomed that are impossible to curtail.

During the year of 1939, I regret to say, we suffered the loss through death of several faithful and trusted City Officials. I refer to the late City Treasurer, Horace A. Colburn, Overseers John D. Haugh and Welford H. Handley, and City Assessor Samuel L. Huffmire.

The retirement of City Clerk Harry B. Whittier, because of ill health,—a man who had served all interests of the City faithfully for a period of forty-six years, and the resignation of Mr. Edward L. Tracy—who made a notable record as Commissioner of Public Works—occurred during the year 1939.

I have devoted my entire time to the duties of the office of Mayor.

I wish to express my appreciation to the Rutland Herald and all others who have assisted in any way in the furnishing of photos or data in connection with this, your annual report. Detailed accounts of the activities of the respective departments are included in this report, and, in the publication of which, consideration has been given to the fact that the average citizen is not an expert in city affairs and that technical and involved problems must be translated into words and ideas that the busy taxpayer can readily understand. Financial data are among the most important subjects of any municipal report and we trust the section of this report detailing City finances is clear and understandable.

I also wish to thank the members of the Board of Aldermen, all City Officials and each and every City employee, for the cooperation and assistance given me during my nine months in office.

Respectfully,
HENRY B. CARPENTER,
Mayor.

Looking Backward Over 1939

GENERAL

- Constructed the equivalent of 2¾ miles of permanently paved concrete highways.
- Cooperated with officials of the Work Projects Administration in the transferring of the State offices of this agency to the City with the resultant benefit to the City tradesmen of \$10,000.00 monthly.
- 3. Purchased new tree spraying equipment.
- Replaced obsolete equipment by the purchase of two new trucks and snow plows.
- Removed driving hazards from the city streets for the benefit of the motoring public and improved parking conditions by acquiring additional parking space from the Rutland Railroad.
- 6. Improved the source of our water supply by cleaning tributaries of Mendon Brook.
- Obtained Federal funds amounting to \$219,000 for public works improvements under W. P. A. auspices.
- 8. Inaugurated Workmen's Compensation Insurance for the benefit of all city employees.
- Executed a new lighting contract involving the lighting of streets and all City-owned buildings, including schools, for the period of one year, effecting an annual saving of \$2,300.
- Increased property values by an estimated \$319,495 with the erection of 34 new houses and general repairs to numerous other buildings. The net fire loss for the year amounted to \$52,806.49.
- 11. 474 births, 139 marriages, 290 deaths were registered in the office of the City Clerk.
- 12. Investigated the health menace of the City Dump.
- 13. Extensive repairs made on buildings at City Farm.

EDUCATION

- The Kingsley and Longfellow Schools have been made safer by installing new fire resisting stair wells and additional exits.
- Much progress has been made in improving the means for the adjustment of the child for school and for society.
- The Schools have more and more become neighborhood centers.
 The two upper schools have become community centers to a large degree.

Recommendations For The Future

GENERAL

- Approval of a Bond Issue for the continuance of the Street Improvement, Sidewalk and Curbing programs.
- 2. Joint action of local public agencies and City officials for the procuring of new industries and of Government aid for the construction of the East Creek Flood Control project.
- 3. Employment of a full time tree warden to supervise the cutting, trimming and spraying of City-owned shade trees.
- 4. Continuation of the policy of replacing obsolete equipment.
- Acquisition of additional parking space, and continued cooperation with public agencies in the enforcement of safety measures.
- Institution of a long range program of cleaning and shoring the banks of Mendon Brook to improve our source of water supply.
- Systematic planning of Public Works improvements that will result in maximum benefits to the City from all Federal funds expended.
- 8. Revision of City Charter and Ordinances.
- 9. Enactment of a Zoning Ordinance.
- Make extensive repairs to the existing building or construct a new City Hall.
- Construction of Municipal Tennis Courts and promotion of additional recreational facilities for the benefit of the social life of the community.
- 12. Act upon recommendations of the State Board of Health for bettering onditions at the City Dump.

EDUCATION

- 1. Increased State Support for Education.
- 2. A program of citizenship which involves the whole community.

 The job cannot be done by the schools alone.
- 3. A study of the educational needs of youth in terms of future employment, economic adjustment and happy living.

Harry B. Whittier

First Rutland City Clerk

APPOINTED 1893 -: RETIRED 1939

Whose honesty, efficiency and courage in conscientiously fulfilling every duty of his office for nearly half a century has been deservedly rewarded by the affection and respect of his fellow citizens and their most sincere wishes for his future health and happiness.

City of Rutland ADMINISTRATION

The business of the City of Rutland is supervised and directed by various elective and appointive officials, whose duties and powers are generally defined in the City Charter and Ordinances.

CITY COUNCIL

The City Council is composed of the Mayor and the Board of Aldermen, in their joint capacity. The administration of all fiscal, prudential and municipal affairs of the City is primarily vested in the Mayor and the Board. The Council is also the legislative body of this municipality and is empowered to enact a great variety of laws, which are effective within the City limits. These laws are designated as City Ordinances.

THE MAYOR

Term of Office-elected for two years.

Salary, \$1500.00 annually.

The Mayor is the chief executive officer of this City. It is his duty to see that the duties of all subordinate officers are faithfully performed. He must also use his best efforts to compel the performance of the laws and City Ordinances.

The Mayor does not preside over or sit with the Board of Aldermen, but, in general, the actions of the Board of Aldermen require his approval.

THE BOARD OF ALDERMEN

Term of Office-two years.

The Board of Aldermen is composed of eleven Aldermen, elected at large from among the legal voters of the City.

The duties of the Board are mainly legislative and executive, and cover a wide variety of subjects. Contrary to popular impression, a considerable amount of time is required, apart from meetings, to study, investigate and consider various matters connected with the City's business, and particularly as it relates to individuals within the City.

The Board regularly meets the first and third Monday in each month. Occasionally these meetings are adjourned, and special meetings may be and are, infrequently called. During 1939 there were twenty-four regular and five special meetings.

20

BOARD OF SCHOOL COMMISSIONERS

Term of Office-three years.

The Public Schools of the City of Rutland are under the control of the Board of School Commissioners, consisting of eleven members, elected at large from among the legal voters of the City, and the management and supervision of the Superintendent of Schools, appointed by the Board of School Commissioners. The School Commissioners are empowered to expend whatever portion of the tax is authorized by the taxpayers for school purposes. The Mayor or Board of Aldermen have no voice or control over these expenditures. The present rate authorized for school purposes is \$1.30 on the Grand List.

CITY CLERK

Term of Office—appointed annually. Annual salaries of City Clerk, two full time assistants and one part time assistant, \$5665.00.

The office of Clerk is one of the most important in the cities and towns of this State. The Clerk's duties are almost inconceivably varied and are specified, not only by the City Charter and Ordinances, but also by a great number of State statutes.

The City Clerk of Rutland performs the duties of clerk and secretary to the Board of Aldermen, Board of Civil Authority, Board of Assessors, Board for the Abatement of Taxes, Board of Finance, Board of Public Health and Board of Control Commissioners. He must not only make up the records of these Boards, but must keep and have them available.

The City Clerk is the custodian of the public records, papers and documents of this City, and of the Old Town of Rutland, prior to the time the City was organized in 1893.

Vital Statistics are filed and documents pertaining to real estate and personal property transactions are recorded in the clerk's office. All City licenses, including dog and beverage licenses are issued through this office.

The grand list is compiled and real estate, personal and poll taxes are computed in this office. Checks are drawn by the clerk, for the approval of the Board of Finance, covering bills for departments exclusive of the department of schools and the charity department.

The City Clerk is charged with the complete conduct and supervision of elections (preparation of check lists, etc.). Three elections will be held in 1940, the annual city election, primary and general elections.

The volume of work, and the variety of duties performed in the Clerk's office has been continually increasing. It has recently been greatly augmented by reason of the passage of the social security and old age pension laws, which require detailed records of vital statistics from individuals.

PURCHASING AGENT

Appointed annually by City Council.

All orders for materials and supplies for the City, including WPA materials and school supplies, are placed through the Purchasing Agent on requisition from the various departmental heads. The duties of the Purchasing Agent were combined with the duties of the City Clerk in April of this year. The policy of the Purchasing Agent is to favor local merchants whenever they can equal the products, prices and services of other competitors. A card record system has been installed showing unit prices and from whom all purchases are made. Purchases for the Charity Department are made by the Overseer of the Poor.

CITY TREASURER

Term of Office—elected annually. Employees—3 Total yearly salaries, \$6060.00.

The City Treasurer receives and disburses the bulk of City funds, and keeps a careful and minutely detailed account of all such receipts and disbursements. It is also his duty to allocate each expenditure to the proper appropriation therefor, to see that appropriations are not exceeded and to disburse no money without proper authority.

This year, by vote of the citizens, the collection of poll and property taxes was separated, polls being collected during the month of July and property taxes during the period from September 1st to October 10th.

All water assessments are computed and sent out from this office.

During 1939, \$450,000.00 was borrowed in anticipation of tax receipts at an average interest rate of slightly more than ¼ of 1%. This is the lowest rate the city has ever been able to obtain. The total cost of these loans, including certification and legal opinion, was \$1,418.53.

The city floated two bond issues during the year, one of \$25,000.00 for sidewalk and curb construction and one of \$50,000.00 for the building of concrete roads. These were sold at par plus \$405.00 at the interest rate of $1\frac{1}{2}\%$, the lowest rate ever paid by the city for long term obligations.

Despite the deficits which have resulted during the past few years, principally because of relief costs, the city has never defaulted on the payment of interest or principal of any of its obligations, and this is reflected in the very favorable interest rates which we have been able to obtain.

A detailed report of the City Treasurer is included in this copy of the City Report.

CITY ATTORNEY

Employees—1 part time. Annual salary—\$1800.00.

Appointed annually by the Council, the City Attorney acts as legal adviser to the City, performing primarily services for other departments requiring legal service and advice. He defends any suits brought against the City.

ASSESSORS

Each elected for three year period.

Employees—3 part time. Salary in 1939, \$500.00 each.

A very slight increase in the valuation over the preceding year was noted.

VALUATION

(on which 1939 taxes were computed)

(on which 1939 taxes were computed	.)
Assessed value, Real Estate	\$10,917,685.00
Assessed value, Personal Estate	1,425,185.00

Total Valuation,	\$132,779.70
Real Estate exempt by state law	\$2,267,106.50
(Taxes paid direct to State)	\$275,905.00
Number of Polls exempted because of age	918
Number of Polls exempted by law	632
	1,560

AUDITORS

Three members.

Salary \$100.00 each per annum.

The Auditors are appointed by the City Council for a term of one year each. Their duties consist of auditing the accounts of all city offices at the close of each financial year, at the expiration of the term of office of any City Officer, or at any other time when required by the City Council. They are assisted in the annual audit by a professional Auditor who is appointed by the Board of Aldermen. (Auditors' report appears elsewhere in this report.)

SINKING FUND COMMISSIONERS

Three members.

Combined Salaries \$150.00.

The Board of Sinking Fund Commissioners are appointed by the City Council for a three year term. They have control of all sinking funds established for the redemption of Bonds or Notes. (Report of Sinking Fund Commissioners appears elsewhere in this report.)

BONDED DEBT

Net Bonded Debt, as of December 31, 1939 (Less Sinking Fund Accumulation) was \$779,147.53, equal to six times the present Grand List. Under Section 3609 of the Public Laws, a City or Town can bond to the extent of ten times the Grand List, which in the City of Rutland would make the bonding limit \$1,327,797.00.

The Net Bonded Debt as of December 31, 1935 totaled \$965,-751.16. Thus our debt has decreased approximately \$187,-000.00 in the past five years despite the issuance of \$100,-000.00 in new bonds during that time. Contrary to the general tendency in towns and cities to increase their Bonded Indebtedness during the depression, Rutland owes \$42,000.00 less in Bonds than it did in 1929. (Detailed statement of Bonds outstanding, when payable, etc., appears elsewhere in this report.)

TAX COLLECTIONS

The Collection of Del nquent Taxes amounted to \$26,-952.76, an increase of 35% over previous year. Total Committeent for 1939, \$614,504.74. Of this amount \$580,984.87 was paid to Treasurer, and \$35,628.93—(including penalties) was turned over to Collector. Delinquent taxes outstanding as of December 31st, 1939, totaled \$91,888.28. Detailed statement showing delinquent taxes due by years appears elsewhere in this report.

STREET LIGHTING

Total cost 1939-\$18,382.04.

Effective January 1st, 1940, a new contract was entered into with the Central Vermont Public Service Corporation—for a period of one year—covering Street Lighting and the lighting of all public buildings including schools. At the close of year 1939, there were in operation 129 Ornamental 400 CP lights and 30 250 CP lights in the business district, and 518 100 CP lights throughout the City. The power company installs, maintains and owns all ornamental posts, poles, light bulbs, etc. The rates in the new contract will effect a saving of approximately \$2300.00 per year over those previously in effect for the same number of lights.

THE RUTLAND HIGH SCHOOL

Report of the BOARD OF SCHOOL COMMISSIONERS

TEACHERS 82 Total Employees 100 NET COST \$198,560.23

To the Mayor, City Council and Citizens of the City of Rutland:

The Board of School Commissioners reports that the cost of operating the schools this year is higher than anticipated owing largely to factors over which we had no control. We were required by the Fire Marshal to provide additional fire resisting stair wells and exits at the Kingsley and Longfellow Schools as a measure of further protection for the children. These two items, including other additional expense occasioned by the fire at the Kingsley School, cost \$6,673.33. The net cost to the City was \$3,818.33 because \$2,855 was received for insurance on the Kingsley School. While we regret the expenditure, every one will feel that it was justified by the need of further protecting our children.

For several years our cost has been rising because salaries of teachers have been increased and the cost of fuel and light has advanced. In 1930 the average salary paid all teachers was \$1,422, in 1939 this had increased to \$1,632 or an increase of \$210 per teacher. The total increase in cost for the 82 teachers now employed is \$17,220 per year. This situation indicates that the salaries were too low in

1930 and holds a promise of better teachers for the children of Rutland tomorrow. The increase, about 30%, in the cost of fuel and light is accounted for by a gradual increase in the cost of buckwheat coal owing, probably, to increased demand for it and to the fact that all school rooms are provided with much more and better light than was the case in 1930. The most difficult problem we have for the near future is to decrease the cost of operating the schools somewhat in harmony with the decrease in school registration. The number of pupils in the elementary school has been decreasing all over the country during the past ten or more years and in Rutland we have 300 less than were enrolled five years ago. The number of teachers could be reduced by five or six and still have classes small enough to insure good results. Up to date the decrease in registration has been mostly in grades one to eight with little change at the high school. Owing to the large area of Rutland in relation to the population, consolidation in the elementary schools is difficult because young children cannot be asked to travel far. We may be able to combine three grades into two classes in one or two schools next year but this will not save much.

The fact of the case is that we could close a school building, transfer all of the children, transporting some of them, to other buildings, and save the salary of one janitor, \$1,000, and the cost of fuel, light and upkeep, about \$1,000; an ultimate saving of nearly \$6,000 a year. We hesitate to close another building because the elementary schools have been in operation in the various neighborhoods so long that people are, fortunately, very much attached to them. All the school buildings are high grade structures in good condition making it still more difficult to close one even though it could be used for some other city purpose. We are reasonably certain that there will be a further decrease in school registration next fall so that consolidation, now overdue, will be quite imperative.

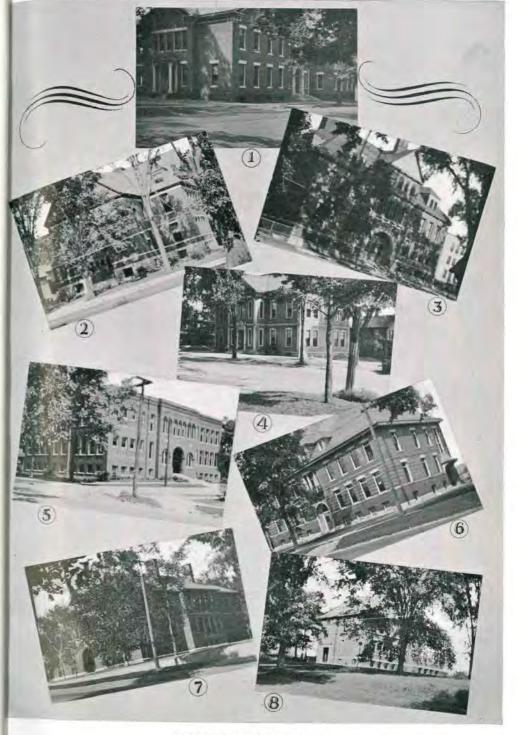

The schools of Rutland are conducted with two major objectives in mind, the welfare of our children and the interest of the taxpayer. The schools, we believe, have merited the confidence you have shown.

Enrollment, Membership and Attendance data appears elsewhere in this report.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS By F. E. Quigley, *President*.

SCHOOL DEPARTMENT

Report of the SUPERINTENDENT OF SCHOOLS

To the Board of School Commissioners, the Mayor, the Board of Aldermen, and the Citizens of the City of Rutland:

One of the principal obligations of society to children and youth is to arrange affairs so that each child will have a chance to develop all the valuable qualities which are possible for him. This process may be describable as self realization. It is, of course, to be understood that self realization must of necessity be in a social situation and that the developing self must bring itself into harmonious relations with other people and with the physical environment.

In our country all men have equality of opportunity and equality before the law but no two men are born equal in talent to do this or to do that. In any family of two or more children we find a wide variety of interest, of academic talent, of physical prowess, and of capacity to appreciate the true and beautiful. But we must remember that every normal child has potential capacity to develop in numerous directions. One of the principal purposes of education is to make a high type of self realization possible. To do this, it is necessary to consider a great many factors about the child's social, economic, and heriditary background. The child is a complex being swayed by emotions, carried along by mass psychology and limited or broadened by the beliefs, mode of life, and the behavior of his family.

A generation or two ago when life was regarded as simple and the child an open book, the complex factors which make a child what he is were unknown or disregarded. It appeared possible to determine just what niche in life a given child was to occupy, to know just what subjects of study would get him there and to know in exact measure his school standing. This "Jehovah complex" on the part of teachers ministered to their own vanity and often to the vanity of the parent but it left out of consideration many of the fundamental factors of life. We now approach

STUDENTS AT WORK IN HIGH SCHOOL HOME ECONOMICS DEPARTMENT

the child much as Moses did the burning bush, in humility and with a prayer for understanding.

If self realization with all its implications for the progress of the race, for happiness, and for the safety of the state is to be achieved, we must give up the idea of mass education and think of each child as an individual with unique qualities for the success of his life. The teacher must be a teacher of children and not a teacher of subjects. The home, the church, the school, and many other agencies must assume some responsibility for the understanding of the child as a unique personality and provide the conditions necessary to bring out all the latent qualities of social or personal value he possesses. The principal trouble at the present time is the lack of correlation between these various agencies and a lack of realization on the part of the public of the importance of a full understanding of the child. The public schools of Rutland are making an effort to modify traditional procedure so that each child shall receive individual attention.

In the elementary school the new goal system takes into account the growth of the child in relation to where he stood a month ago or a year ago. He no longer has the false impression that he is superior because of being at the head of the class nor the discouraging experience of being at the foot of the class. He has entered a cooperative society of equal and friendly people where he works at his own best rate of speed and where he is not hurried or held back by others. Where the teacher has grasped the significance of this new deal for children, the class room situation is very different from the traditional, artificial, and uninviting place. The teacher is the leader still but is more a fellow worker, urging, inviting, stimulating, and aiding children as they need it. Much of the old formality is gone but the degree of regimentation necessary in a democratic society is retained.

In the two upper schools, self realization is made more certain by numerous activities that appeal to individuals, by understanding of individual differences, and by a definite guidance program. Since self realization depends to a large degree upon the variety of experiences possible for each individual, we are fortunate to have a school program for our older pupils which makes possible a rich and varied experience. Self realization demands that each individual excel in something so our varied activities increases the chances of growth.

Our guidance program is too new to make any very definite claims about its value as a help in self realization. We have great

hopes that our teachers will study the child and will know enough of his background and potential capacity to offer him the right things to do at the right time so that he may have the urge to develop all that is in him.

Self realization has been a fundamental element in the American way of life from the beginning of our history. It is the democratic way unknown in many parts of the world. To preserve the rights of the individual and to develop the individual to the highest possible degree has always been our ideal of life. We hope that the school will have the vision and that society will have the intelligence to carry on our tradition so that democracy will always be a living and growing way of life.

Respectfully submitted,

W. W. FAIRCHILD, Superintendent of Schools

Rutland, Vt., January 18, 1940

RUTLAND FREE LIBRARY

Rutland Free Library Report of the LIBRARIAN

City's appropriation-\$6,500.00

To the Honorable City Council:

The Rutland Free Library was organized February 20, 1886, and was first located in an up-stairs room at 23 Merchants Row. In March 1889 an invitation was received to occupy the lower floor of the Memorial Hall, where it remained for 42 years.

In December 1930, the Government took over this site for a new Post Office. In exchange for this, the City acquired the old Post Office building on Court Street for the library.

While this building was being re-modeled the library was housed in one room in the Longfellow School building, with nearly all books in storage. In 1935 our present building was completed and the books were moved here in August of that year.

Few can visualize the successful transforming of a post office into a library, but this was accomplished. We now have a beautiful library with pleasant rooms for reading, administration, periodicals, Vermont material, also a large auditorium and a Junior room.

The total number of books loaned during 1939 was 107,861. This is the first time in the history of the Library that the circulation has reached 100,000.

The Outdoor Reading Room has been well patronized for summer reading, and we hope to improve the grounds another year.

A new project for 1940 will be the opening of the Library Sunday afternoons from 2 until 5:30.

During the year 1939 there has been a Librarian in charge of the Junior Room. This Librarian acts as a reader's advisor, assists with reference work and conducts a Story Hour every Saturday during the school year.

A School Library Council was formed. This group is composed of students from each 4th, 5th, and 6th grades in the City, and meets once a month. They bring requests from the teachers in their respective schools and the Librarian supplies suitable material.

The course in the use of the Public Library was given to the 6th grade pupils of Meldon School.

The total circulation from the Junior Room for 1939 was 28,892.

Art exhibits are held in the Auditorium by various groups. The Mid-Vermont Artists held an exhibition in November, when 55 artists were represented by paintings in oil, water color, and black and white.

A class in Music Appreciation has been sponsored by the Art Committee. This course consists of a series of 20 lectures given by Mr. Paul Pelton, supervisor of the Vermont Music Project.

The Rutland Regional Library has its headquarters in this building. Books are made available to people in the Southwestern district of Vermont from the Book Wagon.

Many gifts from friends have been received. Such gifts are greatly appreciated as this tends toward closer cooperation between the library and the reading public.

CYNTHIA M. GORTON,

Librarian.

Department of Public Works LETTER OF TRANSMITTAL

To the Honorable City Council, Rutland, Vermont

Gentlemen:

I herewith submit the annual report of the activities of the Department of Public Works for the year ending December 31st, 1939.

A major change in the personnel of the department was effected on September 1st when Edward L. Tracy resigned as Commissioner to become Sanitary Engineer for the State of Vermont. I consider it a signal honor to have been chosen to succeed a man of Mr. Tracy's capabilities.

The year of 1939 marked the successful completion of the Street Improvement program. The proceeds of a \$50,000 Bond Issue was expended upon 9 streets. Seven streets were paved with concrete, one was bituminous paved by the mixed-in-place method and one street was widened.

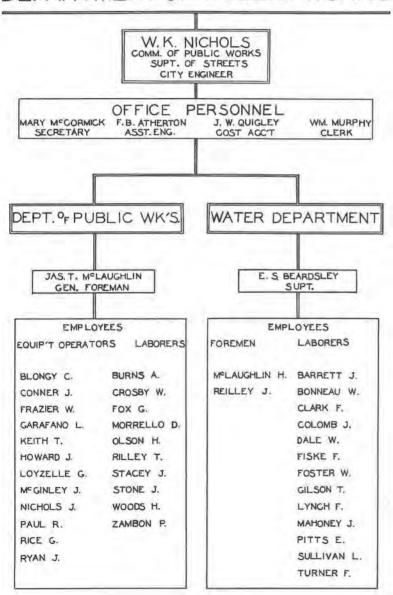

The report of the Water Department is written in elementary language for the benefit of the school children of the city who periodically besiege the office for information of this type to fulfill assignments for their classes in Social Science.

Numerous sewer projects and the concrete walk-curb-gutter project were operated under the auspices of the Work Project Administration. A splendid spirit of cooperation in the handling of all routine on these projects has been accorded to the city by Mr. H. N. Baker, State Administrator of the Work Project Administration and Mr. R. E. Cruickshank, Director of Operations,

I wish to express my thanks and appreciation to His Honor the Mayor and the Honorable Board of Aldermen for their courteous and thoughtful solutions of the many problems of my department. I appreciate the many aids rendered by other City Officials and members of their respective staffs. The support and cooperation of interested citizens and taxpayers has been most gratifying; their constructive criticism proving to be a valuable source of information for the future planning of much-needed Civic improvements.

Respectfully submitted,
WILLIAM K. NICHOLS,
Commissioner of Public Works.

ORGANIZATION DEPARTMENT OF PUBLIC WORKS

Report of COMMISSIONER OF PUBLIC WORKS

Employees-45 full time Gross cost-\$108,907.95

The Department of Public Works is divided into five separate departments, namely: Streets, Sewers, Sidewalks, General, and Water. All departments are under the supervision of a Commissioner of Public Works assisted by a Superintendent of Water and a General Foreman.

i

Structure

The administrative staff of the department is composed of 4 full time employees; an assistant engineer, a secretary, a cost accountant and a clerk. The work of the staff has been enormous since the inception of Work Relief Projects as the department has had the direct control of expending thousands of dollars of Federal funds.

Staff

The permanent employees within the department earn approximately \$66,000.00 annually working on a straight-time basis. Emergency labor necessitating "over-time" pay plus the required services of additional employees for specialized or seasonal work involving the cutting and spraying of trees, snow removal and the labor cost of mechanics on equipment repairs, increases the annual pay-roll to approximately \$71,500.00 or by 8 1/3%.

Personnel Earnings

STREET DEPARTMENT

Appropriation—\$43,805.94 Expense—\$56,422.79
Departmental income—\$13,195.19
Net cost—\$53,714.39

The Street Department is the largest department embraced in the Department of Public Works. The law provides that this department shall annually receive 20-cents on the dollar of the Grand List to be used for highway purposes. The 1939 Grand List netted \$26,555.94 for the department and an additional grant of \$17,250.00 was approved at the time of the annual budget appropriations.

Patching, surface treatment, street cleaning, snow removal, sanding and the maintenance of all city-owned automotive equipment constitute the major items of work allocated to this department.

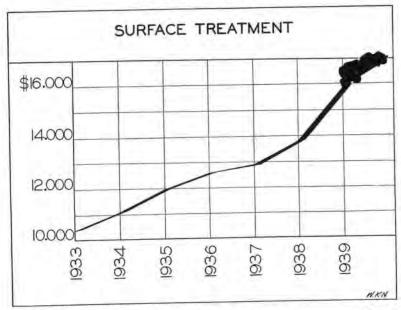

Finance

Duties

Surface Treatment Increase

The surface treatment program for the year was the largest ever to have been undertaken during the lifetime of the City. The cost of this work was \$15,846.07 as compared with \$13,572.00 expended in 1938. There are two contributing factors responsible for the repeatedly larger annual expenditure for this type of work. The concrete curb and gutter program instituted in 1935 necessitates the widening of the traveled way in most instances with a consequent greater square yardage to be oiled or tarred. The tendency of our citizens to build upon out-lying streets has also proved a problem in maintenance that can only be solved by the graveling of the street and the application of either tar or asphalt.

SURFACE TREATMENT

Shoulder Improvement

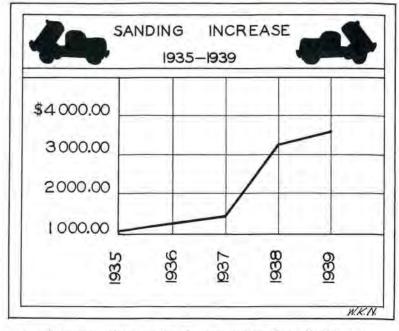

State Aid

The highway shoulders on Woodstock Avenue and South Main Street were treated with heavy tar and pea stone. The cost of this work was \$968.50 of which amount our District Highway Commissioner, Mr. Earle R. Welch was instrumental in having the State of Vermont contribute \$600.00. These shoulders were in very bad condition as are also the West Street shoulders from Columbian Avenue to the City limits. It is planned to widen this section of our highway system during the coming season.

Snow plowing, removal and sanding cost the department \$8,139.13 during 1939 as compared with \$5,541.98 for the preceding year. Due to the heavier snowfall and greater number of storms during the early months of 1939 the cost of snow removal was greater than during any other recent year. The sanding of icy streets and walks is obviously a public service that cannot be curtailed. The yearly increase in the number of motor vehicles in operation is reflected in the increased cost of sanding operations. The realization that the application of a small amount of sand might be instrumental in the saving of a life keeps the department ever alert to its responsibilities during the winter months.

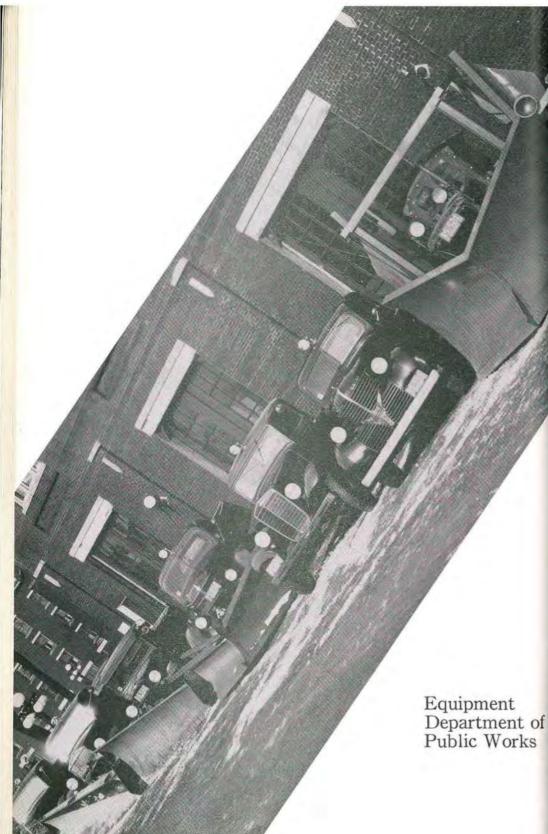

Snow and Ice

SANDING

A safety campaign was instituted during the fall of 1939 whereby many driving hazards were removed from the city streets at a nominal cost. The interest of our citizens, and public work employees, together with the whole-hearted cooperation of our local public utility companies in moving dangerous poles at street intersections, made this undertaking a decided success. It is hoped that more constructive ideas will be forthcoming from the

Safety Campaign

public that this phase of our work may continue during

Two new trucks complete with one-way trip snowplows were purchased during the year at a cost of \$3,556.50. The advisability of making annual exchanges of obsolete equipment for a more modern type has been conclusively proven by the efficiency of these trucks. The operating costs of the new trucks for a period of 9 months totaled \$695.28 as compared to a cost of \$685.77 for operation of the two discarded trucks for a period of 3 months. It is an established policy of the Street department to paint all equipment during the winter months. The City has benefited by receiving maximum trade-in allowances and has received many compliments from outside sources on the generally fine appearance of our fleet.

A new sand spreader, two new snowplows, an electric welding outfit for the blacksmith shop and a used car for the use of the engineering department were purchased during the year.

Norton Place was extended a distance of 75 feet to accommodate a new house. Avenue A and portions of East Washington and Lafayette Streets were widened to allow for parking space and to facilitate winter snowplowing.

SEWER DEPARTMENT

Appropriation \$6,000.00 Net cost—\$6,169.59 Departmental income—\$293.82

The Sewer department is charged with the maintaining of existing mains, man-holes and catch basins; the making of new building connections and the construction of new catch basins and man-holes.

Duties

NEW EQUIPMENT PURCHASED IN 1939

Fleet

New Equipment

Road Improvements Maintenance The sewer main extension program designed to furnish employment relief has reached such proportions that it is beginning to confront the department with a maintenance problem. The total cost of maintaining sewer mains for the year was \$2,494.33 of which amount \$1,335.09 is chargeable to the maintenance of lines constructed since 1933. The added mileage to the sanitary system amounts to over 12 miles since the inception of work relief.

Building Activity An indication of the increased building activity in the city is evidenced by the larger number of new sewer connections made during the year. A total of 34 new main taps were made as compared with 22 taps during 1938.

New Construction New catch basins were built at 3 locations and 1 new manhole was installed on an existing main. **Permanent employees** of the Public Works Department **built the various man-holes** made necessary by the construction of mains under W. P. A. auspices.

SIDEWALK DEPARTMENT

Appropriation \$774.26

Net cost-\$722.16

Duties

The original appropriation to the Sidewalk Department was intended for use as a maintenance fund since all sidewalk construction from 1935 to date has been financed by Bond Issues. However, circumstances developed during the year whereby several property owners were rebated for walks built at their personal expense. These rebates amounted to \$486.67.

Rebates

GENERAL DEPARTMENT

Appropriation—\$8,625.00 Departmental income—\$2.00

Net cost-\$8,490.53

Duties

The General Department is required to take care of all bridge and culvert repairs; repair and replace guard rails, trim dead trees and obstructing branches, spray trees, erect and maintain street directional markers and maintain parks and dumps.

'76 Bridge The maintenance of bridges, culverts and guard rails was done at an expense of \$405.66 for the year. The City is fortunate in having good bridges with the single exception of '76 Bridge on Grove Street. This bridge had the boarding removed from the sides by teamsters many years ago in order that the snow might blow in between the lat-

'76 BRIDGE

ticed chords on to the bridge flooring. The bottom ends of these chords have decayed at the point where they are pegged to the lower, or floor supporting, plates. This decay is the result of the **continued wetting and drying out process** to which the bridge has been subjected due to the unprotected sides. It is apparent that either extensive repairs or the construction of a new bridge is imperative.

'76 Bridge

135 street name signs were erected during the year at a cost of \$1,079.66. This project was sponsored by the Chamber of Commerce. The improved appearance of our street intersections as well as the aid rendered visitors to our City marks this enterprise as outstanding.

Signs

As in past years, it was again necessary to hire experienced outside labor to handle our tree trimming and spraying problems. The cost of spraying trees amounted to \$706.95 for labor and material. The purchase price of the spraying machine and equipment was \$1,180.46. The inauguration of this new tree service will ultimately prove to be of great value to our city. The prevailing trend of making Vermont a resort state should influence our decisions in preserving the shade trees of Rutland. The services of a full time tree warden would be a profitable investment to the city if finances would so permit.

Care of Trees

The Main Street Park band-stand was painted to prevent deterioration and an ornamental iron fence was erected around the Yankee Division monument to discourage vandalism. At a cost of \$586.09 the park was at all times, maintained in a creditable manner that it might leave a favorable impression with tourists.

Parks

The city dump was investigated by Dr. Charles F. Dalton, Secretary of the State Board of Health after complaints had been received from many persons living in the vicinity. The suggestion of Dr. Dalton has been acted upon and

Dump

surplus dirt, from our many sewer projects, is being drawn to the dump site this winter to be used as a protective cover during the summer months. The cost of operating the City Dump was \$1,123.20.

WATER DEPARTMENT

Appropriation—\$37,075.00 Net cost—\$37,102.88 Departmental income—\$858.66

Finances

The Water Department is the only self-sustaining city department. It derives an income from the sale of water by means of rates based on a schedule and meter system. This income is approximately \$15,000.00 greater than the annual expenditure and is used for other city purposes in an endeavor to minimize the tax rate.

Duties

The Water Department maintains the watershed, the reservoir, the numerous city mains, meters, hydrants, valves and house connections. It also extends the city mains, when necessary, to accommodate new buildings and to furnish fire protection in compliance with specifications of the New England Fire Insurance Exchange.

Source of Supply The Rutland City watershed is located in the Towns of Mendon and Sherburne about 4 miles easterly from the city. The drainage area embraces 23 square miles of which the city owns over 4,000 acres. A systematic schedule, of reforestation and selective cutting, tends to make the Municipal Forest a beauty spot while affording protection to the source of supply.

Storage

The main reservoir is located, 3.2 miles northeasterly from the corner of Woodstock and Bellevue Avenues, above Glen Dam on Mendon Brook. A dam across the brook forces the water into a diversion ditch where it is chlorinated before being allowed to run into the reservoir. The capacity of the main reservoir is 4,200,000 gallons. During 1939 the department spent \$8,920.96 for taxes, caretaker's salaries, chlorination, reservoir and brook cleaning and tree planting.

Consumption The average daily consumption of water is 175 gallons per capita per 24 hours, under normal conditions, based on a population of 17,300. During the week beginning July 19th the city suffered from a severe drought and the average daily consumption soared to what is believed to be an all-time high of 230 gallons per capita. Complete records of the consumption have been filed since 1930 when

a Venturi Recording meter was installed on the supply main below the reservoir. All water flows to the city proper through mains under force of gravity since the reservoir is 143 feet higher than the corner of Woodstock and Bellevue Avenues. The two mains are 12-inch and 16-inch in size; two being used in order that the city shall not be entirely without water if one main should spring a leak. The distribution system is composed of over 50 miles of cast iron mains laid in our city streets. The majority of these mains are 6-inches in diameter although there is 15,000 feet each of 8-inch and 12-inch pipe in the system. During 1939 new 6-inch mains were laid on portions of Harrington, Cramton and Easterly Avenues; the Stratton Road; Harvard and Jefferson Streets, at a cost of \$4,298.78.

Services

Supply

System

Distri-

bution

System

The largest single item of expense incurred by the Water Department for 1939 was \$6,595.81 for repairing and relaying house connections. Mr. Beardsley, Superintendent of Water, replaced all house connections, lying on the route of the concrete pavement projects, with new copper pipe. A total of 108 changes cost the department \$2,531.28 due to the Bond Issue construction. 110 other services were changed to copper pipe and 33 new house connections were made.

There are 327 hydrants in the city: 307 are located in the public streets and 20 are located within the grounds of industrial plants. These hydrants not only are used for fire protection but also for cleaning the city mains. During the summer months each hydrant is "flushed," or turned on and allowed to run for a half hour period, to remove any sediment that has collected within the mains. In the winter months each hydrant is periodically tested to make certain that it is not frozen and is ready for use in the event of fire. \$1,940.35 was spent on hydrant repairs and maintenance during the past year.

A new 1½-ton pick-up type truck was purchased for the use of the department in the spring of 1939 at a cost of \$615.00.

New Equipment

Hydrants

ENGINEERING DEPARTMENT

The Engineering Department is non-existent in the financial structure of our city since the salaries of the staff are pro-rated among the several departments comprising Public Works. It is the duty of this department to prepare all plans, estimates and specifications, surveys and designs in advance of any contemplated work. Field work in

Finance

Duties

laying-out, supervising and inspecting of all projects is also a duty of this department. The increased work forced upon the personnel since the inception of work relief projects has been enormous. Although this department is working with the most limited engineering staff employed by the city since 1927, all work is being kept up to date.

WORK RELIEF

Maximum No. of employees—580 City cost—\$81,450.12 Federal cost—\$219,000.00

Finance

The Work Relief projects are divided into three departments for accounting purposes. This is made necessary since two projects, namely, W. P. A. Curbs and Walks and W. P. A. Concrete Roads, are financed by Bond Issues. All other relief projects are financed from General City funds by budget appropriation and are designated as W. P. A. projects.

WORK PROJECTS ADMINISTRATION

Federal Funds—\$116,088.16 Gross cost—\$18,567.42 Net cost—\$17,973.63

Supervision The city funds referred to in this report include only such monies as were administered by the Department of Public Works. The appropriation to the department is made necessary to furnish work relief during the winter months when it is not possible to do concrete work. There are numerous other vocational and recreational projects operating in the City financed either, by General City Funds, or from the Charity Department appropriation. These projects are supervised by His Honor the Mayor and the Overseer.

The number of employees assigned to W. P. A. is largest

during the winter months. On November 29th a total of 235 men were transferred from the Bond Issue accounts to the W. P. A. The number assigned has increased almost daily and at present 350 men are employed on our sewer program. The planning of projects for work relief is worthy of mention as our sanitary sewer system is practically complete. Our present plans are to construct storm water sewers discharging directly into the brooks and creeks. It is felt that this plan will relieve the pressure on the sanitary system in the low-lying sections of the city; and will save the city the necessity of building an over-

size sewage disposal plant at some future date.

Work Schedule During the winter of 1939 a project was operated in Mendon consisting of log crib building, for bank protection, and cleaning the stream bed of debris. The city share of the expense was \$1,010.34.

13,842 feet of new sewer mains were constructed on portions of 20 streets. The greater portion of the pipe was 10-inch in size.

The department spent \$2,933.30 to transport men on work relief to projects operating in outside towns. This is considered to be a profitable solution of our employment problem when enough men from the city are assigned to the particular project so as to enable the truck to carry its full complement.

W. P. A. CONCRETE ROADS

Federal funds—\$72,097.23 Bond issue—\$50,098.06 Balance—\$333.71

During the summer months concrete pavements were laid on seven streets at a cost of \$44,473.28 for actual paving operations. The cost by streets is as follows:

Center Street	\$8,847.22
Convent Avenue	3,781.06
Cottage Street	4,955.72
Madison Street	6,848.71
Nichols Street	5,238.54
Washington Street	7,421.36
West Street	7,380.67

The concrete curb and gutter was moved on Spellman Terrace to widen the street and the surface was bituminous treated at a cost of \$616.35. Engrem Avenue was paved by the mixed-in-place method using heavy asphalt and crushed stone.

37,503 bags of cement, 3,488 cubic yards of crushed stone, 4,985 cubic yards of sand, 11,900 feet of expansion joint and 185,843 pounds of reinforcing steel were used in the concrete road construction. A total of 31,968 square yards of pavement was laid at a net cost to the city of \$1.53 a square yard. The cement includes 16,000 bags furnished by the Federal Government.

It is hoped that the public will authorize a Bond Issue for the continuance of the road improvement program in 1940. Many of our older concrete pavements are too narrow for present day traffic and many of our arterial highways should be concrete paved to facilitate winter travel.

Comments

W. P. A. CONCRETE WALKS AND GUTTERS

Federal funds—\$30,442.31

Gross cost—\$12,784.64 Net cost—\$12,558.46

The concrete sidewalk and the curb and gutter program were operated in 1939. The property owners contributed \$6,424.32 of the total cost of construction. 6,249 feet of sidewalk and 16,501 feet of curbing was constructed.

Walks Gutters

There are very few petitions requesting the construction of sidewalks on file although approximately 7,000 feet of curbing remains to be constructed.

Report of the PENSION BOARD

Net cost to City-\$19,433.37

To the Honorable City Council:

Gentlemen:

For the second year of its operation the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the city of \$19,433.37. This figure is explained as follows:

 Total Premiums paid to Insurance Company \$25,465.69

 Total Benefits paid to Pensioners
 1,799.98

 Refunds
 10.40

 \$27,276.07

 Less total amount of employees contributions
 7,842.70

 Net Cost
 \$19.433.37

Since the start of the plan, seven employees have been retired on a minimum annual pension of \$400.00 each. During the past two years two of these, John Howard and Kate E. Lamb, have died, each after receiving only two monthly benefit payments.

At the present time there are 172 contributing members, 90 from the school department and 82 from the other departments of the city.

Two meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

Although 7 employees are now eligible for retirement for 1940 on the minimum pension of \$400.00, it is doubtful whether more than 2 of this number will be retired in 1940 as all the others, health permitting, have been or will be granted permission to continue in the service of the city during the coming year.

The budget requirements for 1940 will be the same as for 1939, that is, \$20,250.00.

Our thanks is due to the various City Officials and the City Council for their cooperation and assistance during the past year as well as to Mr. T. P. Roberts, our City Treasurer, for his assistance with the insurance details.

Respectfully submitted,

For the Committee,

ESME A. C. SMITH,

Chairman.

Report of the COMMISSIONER OF PUBLIC SAFETY

Salary of Commissioner-\$300.00 per year

To the Honorable City Council:

Gentlemen:

I do hereby submit to you my report as Commissioner of Public Safety for the year 1939.

The personnel of the Fire Department consists of one Chief Engineer, one Deputy Chief Engineer, two Captains, sixteen permanent men and eight call men.

All of the men connected with this department are experienced men, and great credit should be given Chief Koltonski and Assistants in making the department what it is today. We lost by death one of the regular firemen at Station 2, Edward C. Duggan.

The apparatus consists of one 75 foot American LaFrance Aerial ladder truck, two 750 gallon, triple combination trucks, one Buffalo quadruple truck with a 750 gallon pump, one International one-ton service truck and a Studebaker sedan.

All the apparatus is in good condition but Engine No. 2 is twenty-one years old, being placed in service in 1919. If there is to be a change made in the City Charter, provision should be made for a Sinking fund to be set aside each year for the replacement of fire apparatus.

The Department responded to 420 alarms during the year as follows, 301 telephone, 98 bell, 12 verbal and 9 automatic thermostat. This is an increase of 26 alarms over 1938, and the greatest number in the history of the City. The Department also responded to 22 special service calls of various nature.

FIRE STATION No. 1 AND EQUIPMENT

The value of property involved was \$2,046,714.84. The insurance carried was \$1,754,680.76 and the loss was \$50,655.57. There were 47 claims paid by Insurance Companies amounting to \$2,140.90 to which the Fire Department was not called, making a total loss of \$52,806.47 for the year. There also was the loss of one life at a fire.

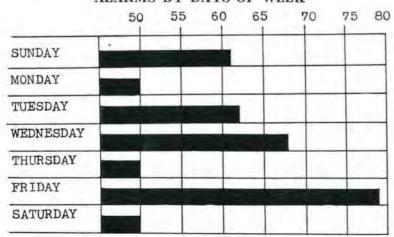

The inventory value of the Fire Department is \$71,544.00, a copy of which is on file in the office of the City Treasurer.

Members of the Fire Department made 755 building inspections during the year, which has kept our mercantile district fairly free from fires.

As our number of alarms has increased each year, we find it more difficult to make the required number of inspections. It takes two men about three weeks to inspect the entire business district, and having two men on duty elsewhere than at Head-quarters makes it impossible to comply with the Class B regulations of the National Board of Fire Underwriters which require that an operator, capable of testing and manually transmitting alarms, shall be on duty at all times in communities having more than 300 alarms per year.

During the year one new fire alarm box was added. There are several fire alarm boxes that have been in service since 1890 and these should be replaced with new ones as soon as possible. There are six of the original boxes now in service which were installed in 1882 or 1883 and these boxes should be replaced at once.

ALARMS BY DAYS OF WEEK

A drill school was held in May with the Drillmaster from Brookline, Massachusetts Fire Department as instructor. All regular men attended as well as men from surrounding towns.

Another training class will be held in February, with an instructor from the Massachusetts Department of Education. The entire cost being paid from funds obtained by the International Association of Fire Chiefs.

I would recommend that a drill tower for the training of firemen, be built by the City on the property owned by them at the corner of Deer Street and Woodstock Avenue.

POLICE SCOUT CAR

This department consists of a Chief of Police, a Sergeant and 12 full time Patrolmen, 2 retired Patrolmen and 82 Special Officers.

Chief Fox and the Officers under him have carried out the duties assigned to them in a most creditable manner, and the good feeling that has existed between the men this past year has been splendid. The granting of the one day off a week for each Patrolman has been a splendid thing and more than appreciated. It was something they were entitled to.

The traffic this last season has been extremely heavy, and especially through the holidays. The widening of Center Street as well as the use of a portion of Depot Park has been a big help for parking.

SCOUT CAR REPORT

An Oldsmobile Sedan was purchased in exchange for the 1939 Ford in December 1939.

The prowl car covers the residential part of the city as well as the factories and stores outside the business district, mostly at night, as follows:

Miles Covered 19,248 Calls Answered 761 Arrests Made 120

Both departments have lived within their budgets.

I wish at this time to thank His Honor the Mayor, and The Honorable Board of Aldermen, the Chiefs of both Departments, for their fine cooperation the past year.

Respectfully submitted,

JAMES C. DUNN, Commissioner of Public Safety.

Report of the WELFARE DEPARTMENT

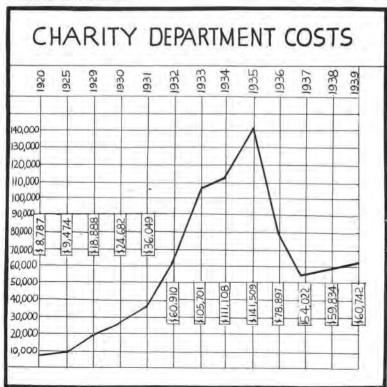

Net Expense; Charity, General \$56,580.66 Charity, Hospital \$11,711.26

To the Honorable City Council:

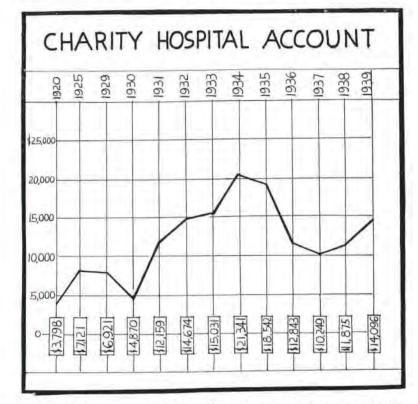

I hereby submit the following report for the year 1939:

Although coming in to the Charity Department late in the year, I am pleased to report as follows:

The appropriation to the department of Charities and Corrections was \$60,000.00. The department collected \$2,536.24 for support of families from other towns, \$461.66 from individuals, including Board paid at City Farm; \$873.70 from other sources, making a total of \$3,891.60 reimbursements. The gross expense amounted to \$60,472.26, including payments made for which refunds were obtained, and the net expense was \$56,580.66—\$3,419.34 remained in Charity Account at close of year and was returned to General.

The appropriation for the Hospital account was \$12,000.00. The gross expense was \$14,096.55, with refunds of \$2,385.29, leaving net expense \$11,711.26. \$288.74 remained in Hospital Account as of close of year. Thus, the Charity and Hospital Accounts both remained well within their appropriations.

Detailed report of Welfare Department expenses appears elsewhere in this report.

The W. P. A. sewing project and the mattress project both under efficient supervision are an asset to the City, not only in salaries of persons employed, but in the lessening of the Charity expense. 8,713 garments made at the sewing project were distributed to the needy.

5,501 cords of 4-foot wood were cut by men for their own use. Out of every 8 cords that they cut, 3 cords were turned over to the City to be used for their dependents. During 1939, 1,4641/4 cords were delivered.

A new ruling now in effect is that persons applying for aid are required to work out said amount at the City Farm.

Much needed repairs and improvements at the City Farm have been completed. This was accomplished through the cooperation of Mayor Carpenter and members of the Board of Aldermen.

This is a joint report. The former overseer, Welford H. Handlev having passed away in September. I took office November 1. I wish to express my appreciation to the Mayor for his cooperation and the office force for their efficient help.

Respectfully submitted.

OSCAR S. BERGSTROM. Overseer of Poor.

REPORT ON SEWING AND MATTRESS PROJECTS (Sponsored by Charity Department)

To the Honorable City Council:

Complying with your request of January 4th for amounts expended in wages and materials for the Sewing Project and Mattress Project for the year 1939, these expenditures are listed below, showing Federal expenditures during 1939, sponsor and co-sponsor contributions during 1939, with corresponding totals for each, together with totals on each of the two projects for labor and material:

O.P. No. 665-12-3-8 and	Project		Labor	Material	Total
	Sewing I sor and Co-S	Federal ponsor	\$13,888.63 110.95	\$1,825.55	\$13,888.63 1,936.50
		Total	\$13,999.58	\$1,825.55	15,825.13
	4 Mattress I sor and Co-S				311,764.10 1,224.81
		*** . *			

Total \$11,736.46 \$1,252.45 \$12,988.91

For the period from January 1, 1939 to December 31, 1939, the Sponsor and Co-Sponsor contribution of \$1,224.81 was broken down into more than \$600 from the State of Vermont, and the balance was paid by the City of Rutland.

Very truly yours,

LOIS G. GREER. Acting Director, Professional and Service Division.

OLD AGE ASSISTANCE DEPARTMENT

STATE HOUSE Montpelier, Vermont

Net cost to City-\$21,039.45

To the Honorable City Council, Rutland, Vt.:

For the information of your taxpayers the customary annual statement is presented for your City report.

OLD AGE RECIPIENTS FOR RUTLAND CITY From January 1, 1939 through December 30, 1939

Month	Amount	Recipients	Burial Payments	Number of Burials
1939 January February March April May June July August September October November December	\$3,610.50 3,793.00 3,945.50 3,940.50 3,950.50 3,913.00 3,888.00 3,888.0 3,888.0 3,888.0 3,888.0	224 229 228 228 229 226 226 221 221 221 221 221 221 221 221	\$105.00 124.00 100.00 100.00 112.25 216.25	1 1 1 1 1 1 1 2

^{*}Average per month.

Grand total paid in Rutland City during the year—\$47,276.00.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance to all new applicants who have been found eligible after investigation. The cooperation of overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of the department during the year were 3.9%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

W. ARTHUR SIMPSON,
Director.

W. L. SEWARD, Local Consultant and Member of Old Age Assistance Board.

Report of the DISTRICT NURSE

City's appropriation-\$300.00

To the Honorable City Council:

Gentlemen:

The Rutland Missionary society sponsors the district nursing service of this city.

Its purpose is manifold: namely, the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases, throughout the year, have been taken care of through the generosity and benevolence of interested individuals who have contributed clothing and money.

With funds thus received, medicine, milk, eggs, fruit, and food have been purchased. The Red Cross has furnished cod liver oil when needed.

Through the cooperation of the City Charities Department, Schools, the Salvation Army, and Churches, Thanksgiving baskets were provided for many deserving families.

At Christmas, gifts of money, clothing, and toys made it possible for me to remember seventy-two children. With the money, I bought snow-suits, underwear, shoes, over-shoes, stockings, mittens, sweaters, and toys. Also, each child was given a bag of candy.

Christmas dinners were distributed to 148 families, through the generosity of interested individuals, clubs, fraternal orders of the city, and the splendid efforts of Mrs. John Davies, of the City Charities Department.

Layettes, clothing, and mattresses, made under the direction of the W. P. A. Sewing and Mattress Projects of this city are given to me to place where needed.

Families visited	
Calls made	218
Welfare calls	3053

Prenatal Paid patients	185
Paid patients. Maternity cases	44
Maternity cases. Layettes distributed	56
Layettes distributed. The expense of the year has been as follows:	
Salaries for nurses\$1,2	246.00

This was met by the City's appropriation of \$300.00, and money received from paid patients which was \$312.75. The balance, \$633.25 was paid by the Rutland Missionary Society.

In conclusion, I wish to express my appreciation to Mayor Carpenter and all in the Charities Department, for their splendid cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN,
District Nurse.

MUNICIPAL SWIMMING POOL

Report of the SWIMMING POOL MANAGER

To the Honorable City Council:

I hereby submit my report as manager of the Swimming Pool for the year ending December 31, 1939.

Despite a decided increase in baseball attendance the Municipal Pool receipts show a considerable gain over the previous season.

The policy of reducing the prices for Adults and for Family Season tickets yielded increased attendance of Adults and especially of whole families who availed themselves of an opportunity formerly limited to a few members.

Another innovation was the holding of meets at night, which drew large audiences.

Before the season opened a large amount of painting of stairs, dressing and locker rooms was completed by the N. Y. A. under the direction of George Rattee. A new entrance road was constructed, new diving boards were installed and the pool bottom thoroughly overhauled.

During the season a number of meets and stunt competitions were held with teams from surrounding towns. Red Cross examinations were held the last two weeks in August under the direction of Edward Guinness.

I wish to thank His Honor the Mayor, the Board of Aldermen, for their cooperation and the City Engineer, the Chief of the Fire Department, the Chief of the Police Department, the Health Officers, the Superintendent of the Water Department and the men of those departments for their assistance during the season. I wish also to express my appreciation to the Fair Association for the loan of park benches used at the pool.

Respectfully submitted,
GEORGE F. HOWLEY.

Report of the SUPERVISOR OF RECREATION PROJECTS

Expense to the City in 1939-\$541.62

To the Honorable City Council:

Gentlemen:

I hereby submit a report covering recreation in the city of Rutland for the year ending December 31, 1939.

Appropriation of City Council...... \$600.00

EXPENDITURES

Rent	165.00
Lights	49.65
Equipment (baseballs and bats, etc.; and stoves and tables for Recreation Center)	175.04
Supplies (First Aid kits; Arts and Crafts materials; music and ping pong sets)	127.54
Transportation (picnics, baseball and basketball trips)	13.00
Repairs (to playground swings, etc.)	11.39
Total Expenditures	\$541.62
Cash on hand (Void)	\$58 38

This is the fourth year in which the City of Rutland and the Work Projects Administration have cooperated in a program of organized recreation. During the past year the Work Projects Administration has paid for the services of four full time workers, \$2,967.08, while the National Youth Administration paid approximately \$2,016.00 for ten part time workers.

Due to special events on the playgrounds, the attendance during the past summer rose to 675 different children who, at least once a week enjoyed the benefits of supervised play on the five playgrounds. Since accurate statistics are not available it is safe to presume that twice this number of different children attended playground activities during some part of the summer. Assuming 675 to be a minimum figure for 15 weeks of playground activities a total attendance would be 10,125.

The Recreation Center on West Street through conducting Forums, and classes in dancing, singing, arts and crafts and table games as a major part of the activities attracted the attention of about 450 different young people and adults weekly.

Due to new and constant demand it is recommended that larger quarters be provided. Summer playgrounds should be improved to keep the City of Rutland abreast with other Vermont communities.

The Work Projects Administration and the Rutland Recreation Supervisors appreciate the full cooperation of His Honor, the Mayor, the Honorable Board of Aldermen and the other City officials for their interest in this project.

Sincerely yours,
MARY ELIZABETH HOWLEY,
Recreation Supervisor.

Scenes from Pico Peak Ski Development

N. Y. A. CARPENTRY

Report of the N. Y. A. CARPENTRY AND WORK SHOP PROJECT

From January 1, 1939 to January 1, 1940

Expense to City in 1939-\$680.92

Project Sponsored by Henry B. Carpenter, Mayor, City of Rutland

Throughout the year 1939 there has been a total of 120 boys employed on the project. These boys are between the ages of

Each boy receives from \$16.80 to \$17.36 per month and works a total of 48 hours per month, in addition he gives 18 hours of his time to Relative and General Training.

The Relative Training under the supervision of the project supervisor and the General Training under the Supervision of Charles B. Costello, Educational Supervisor.

All work outside of the workshop, which is located in the Madison Street School Building is under the supervision of Charles F. Lorette, Assistant Foreman.

There are at the present time 59 boys, two supervisors and one assistant foreman employed on the project.

The boys from January 1, 1939 to January 1, 1940 have completed the following projects:

School Department

450 school desks refinished and repaired;

Book cases and storage cupboards for school department;

Complete kitchen in Park Street School plus storage room

Kitchen in Lincoln School.

City Farm

Removal of dirt under ell. Also old stone walls, building forms and pouring cement walls and floor;

Building of 2 new porches;

Building dormer windows;

Remodeling interior of Overseer's quarters: Repairing barns; shingling all of main buildings; Painting main buildings; window and door frames;

Building outside stairs to help's quarters.

Library

Storage shelves built in basement of Rutland Free Library. Paneling walls of Auditorium in Rutland Free Library. Also sectional speakers platform in Library.

City Hall

Remodeling of City Clerk's office;

Changing City Court Room and repairing desks in Aldermen's chamber.

Fire Department

Building storage cupboards;

Relocation of Fire Chief's office;

Redecorating all rooms in Firemen's quarters.

Madison Street School

Electrical wiring and fixtures;

Building of partitions and work tables, etc., for other projects located in Madison Street School.

Wages paid by the Federal Government in the workshop project amounted to \$12,088.69, and Federal money expended for material for the workshop amounted to \$1,-168.55.

GEORGE J. RATTEE.

Project Supervisor.

Legal Affairs Report of the CITY ATTORNEY

Salary \$1,800.00 per year

To the Honorable City Council:

Gentlemen:

From the time I took office, in April, 1939, the City has been a party in two suits of major importance. The following is a list of such cases and the disposition made of each.

Community Hospital v. City of Rutland.

Suit against the City in Municipal Court to recover \$201.23 (approximately \$3.50 per day) for the care and support of Mrs. Frances Sargent, a transient person, from June 7, 1939 to August 3, 1939. Judgment for plaintiff to recover \$154.72 (approximately \$2.71 per day). Judgment and cause of action against the City for further care to October 25, 1939 settled for \$325.00 (approximately \$2.32 per day).

Manning Manufacturing Company v. City of Rutland.

Suit in County Court in trespass. Suit was discontinued without cost to the City.

A considerable number of minor actions and proceedings, in which the City was involved, were all disposed of without any expense on the part of the City. A great many paupers were removed to the State Hospital in Waterbury for treatment.

The Overseer and I investigated a number of cases of mental illness and adequate provisions were made in each case for care and treatment. At a meeting held in Montpelier, and called by a committee appointed by the Governor for the purpose of formulating a more feasible and uniform pauper law for submission to the Legislature, the Mayor and I made certain recommendations, which we believe will be of benefit to the City if adopted.

The usual number of opinions on legal and municipal questions were requested by various city officials, boards and committees, and each request was attended. Frequent consultations were held with various officials and boards concerning municipal affairs. A number of contracts were drawn up on behalf of the City, as well as an unusual number of easements. Proceedings for the discontinuance of streets within the City, which were brought about largely in anticipation of East Creek Project materializing, was commenced, and the decisions in those cases are now pending.

A number of ordinances were submitted by me, two of which were of major importance. A Pin Ball Ordinance was adopted. The former ordinance relating to signs, was amended so that now a fee must be paid for any signs on City property. As a result of the strict enforcement of the ordinance relating to parking in the downtown area, several offenders were brought into court. In each case the offender entered a plea of guilty and paid a fine.

As in the past, the collection and settling of claims in favor of the City required a great deal of attention, particularly tax collections. Many minor actions were instituted and claims filed in the State, Probate and Bankruptcy Courts. Actions were brought against towns for pauper assistance and against individuals for bills and other sums owed to the City.

No salary or fees in this Department, in excess of the salary designated by the City Council, were incurred.

At this time I wish to acknowledge my sincere gratitude to the Mayor and the members of the Board of Aldermen for their constant cooperation and kind assistance.

Very truly yours,

PETER A. BOVE, City Attorney.

Report of the HEALTH OFFICER

Salary Health Officer \$1200, per year.

To the Honorable City Council:

Gentlemen:

I herewith submit the following report for the year 1939:

The health department employs a health officer, who also acts as plumbing inspector, and a milk inspector.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, dairies, municipal swimming pool and other places of public assemblage.

Contagious diseases reported and quarantined in 1939 were as follows:

Measles		2					4		į	į.	÷			4			476
Chicken Pox	i	į.					5		ì			Ų			Ĭ,		102
Whooping Cough	 Ç,	i.	2	0.		10	ă,	å,	4	à.		Q.	â,	i		à.	50
German Measles											į.			v			4
Mumps	٠	ŗ.			è.	á			÷		ġ.	÷	٠	è	4		3
Scarlet Fever		ż			ů.	1	-	į.	à		ċ	d		L	á		3
Infantile Paralysis.		8					8	š		ė	8		ě	ě	į	8	1
																	-
																	639

The City Water was found to be contaminated eight (8) times.

The Water from the municipal pool was found to be contaminated three (3) times.

Clinics for immunization against Diphtheria were held in public and parochial schools and 308 children immunized. This work was done by Doctors Hodsdon, Reedy and Bellerose of the Board of Health.

The Health Officer made and approved of 18 plumbing inspections and investigated 15 sanitary complaints.

As is the case throughout the country, heart disease, cerebral hemorrhage and cancer continue as the leading causes of death in this City.

It is of interest to note that tuberculosis, once the leading cause of death in the United States, is now one of the lowest causes of death in Rutland.

A. H. BELLEROSE, Health Officer.

VITAL STATISTICS

To the Mayor, City Council and Citizens of Rutland:

I hereby submit the following report on Vital Statistics as filed in the Clerk's Office:

Report of CONSTABLE AND TAX COLLECTOR

To the Honorable City Council:

Collections in delinquent taxes advanced considerably over the previous year, approximately 35%.

The Collection of Delinquent Taxes amounted to \$26,-952.76, from January 1, to December 31, 1939.

Several tax sales on lots were necessary when the owner could not be located or was not interested in paying up the back taxes.

1,070 Poll and Old Age Assistance taxes were collected during the year covering from 1933 to 1939 inclusive, and a fair percentage are making weekly payments on their accounts.

Plans are under consideration in respect to the idle Colonial Marble Company plant, on Columbian Avenue, back taxes, which are under the jurisdiction of the Federal Court at present.

I believe that the changing of date for payment of Poll and Old Age Assistance taxes to July 1, instead of September 1, will be a benefit to the city in better collections.

I wish to express my sincere thanks and appreciation to the Mayor, Board of Aldermen, City Attorney, and all department heads and assistants, for their aid and cooperation given me at all times.

> JOHN J. CARBINE, City Constable and Tax Collector.

Report of the INSPECTOR OF BUILDINGS

Salary of Inspector-\$100.00 per year

To the Honorable City Council:

Dear Sirs:

I herewith submit the following report for the year ending December 31, 1939. 1020

per 31, 1939.	1939
New houses. House alterations and additions. Porches and porch enclosure. Alterations for apartments. Private garages. Service stations. Lubritorium. Service station alteration. Office.	$\begin{array}{cccccccccccccccccccccccccccccccccccc$
Business block addition: Business block repair. Store addition. Restaurant front and remodeling Marquee. Salesroom. Storehouse. Welding plant.	1 2 3 1 1 1 1 1 1
Grandstand Barn Poultry houses Shed Barn addition Repair storehouse Build chimney Move gas tank Move buildings Move gas pumps Wreck buildings	9 7 1 1 1 1 7
Wreck buildings	145
	. 1 1

The total estimated value of buildings erected or repaired in 1939 amounted to \$319,495.00 including \$75,000.00 for new Grand Stand at Fair Grounds.

Respectfully submitted,

GUY E. THAYER, Inspector of Buildings.

Report of the MEAT AND MILK INSPECTOR

Salary of Meat and Milk Inspector-\$2000.00 per year

To the Honorable City Council:

Gentlemen:

I respectfully submit the following report of my work as Meat and Milk Inspector for the City from April 1, 1939 to January 1, 1940.

Milk licenses have been issued since April 1 amounting to \$491.00, as follows;

Stores Restaurants	*		• ;																
Restaurants Fair Grounds. Producers			0.5									,	,				4		
Producers.	•			+		٠	+				+	٠							
Dealers					•	*	•	•	*	*		*	٠		٠	٠	ŕ	×	
Dealers Wholesalers				4								٠							
atorb, ,		*		*					*	÷								,	

Farms, dairies and creameries have been inspected periodically, and a report submitted to the Aldermen. Over 200 Milk samples have been taken and sent to the Laboratory of Hygiene, Burlington, for analysis. A detailed statement of the reports have been given the Aldermen each month and published in the Rutland Herald.

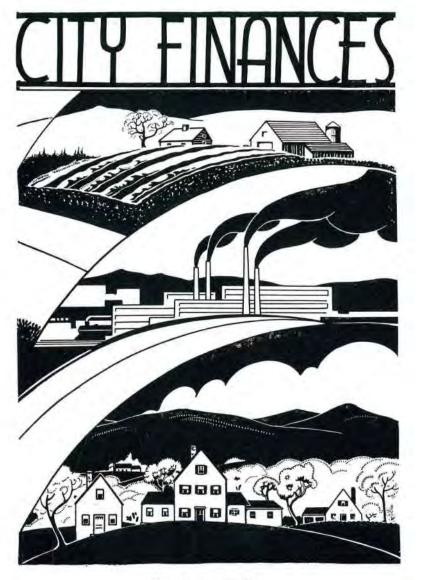

All meat has been inspected in accordance with the City Ordinance. All animals were fully inspected before slaughtering, doubtful animals rejected, and those which appeared healthy were butchered, and the meat fully inspected. Any doubtful carcasses were rejected and destroyed.

From the meat inspections, \$920.00 has been received and turned over to the City Treasurer, as follows;

290 cattle 216 lambs 221 swine 710 calves	@ .25 @ 1.00	\$290.00 54.00 221.00 355.00
		\$920.00

Respectfully submitted,

NORMAN H. COX, Meat and Milk Inspector.

Drawn by Lucy H. Doane Supv. of Art, Rutland High School

Report of the CITY TREASURER

Report of Auditors

February 2, 1940

To the Honorable City Council:

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of the Poor, Superintendent of Schools, City Constable and Sinking Fund Commissioners, from January 1, 1939 to December 31, 1939, inclusive, and we hereby certify that IN OUR OPINION, they have duly accounted for all monies received by them.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and have checked incomes back to their original sources of entry and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's true financial condition on December 31, 1939, and the result of operations for the twelve months period then ended.

Respectfully submitted,

ARTHUR E. CROWLEY, WARREN G. GOODRICH, A. TUTTLE PATTERSON,

Auditors.
